Mr. George C. Loomis of Belgrade was in Ironton last Saturday to see his son, Prof. Burt W. Loomis. Mr. Loomis has but recently returned from a visit to New York state. He says everything looks mighty favorable for the Democracy.

Mr. Jacob Dinger, who underwent an operation in the Lutheran Hospital, St. Louis, a couple of weeks ago, continues to improve and it is thought will be able to return home in the course of two or three weeks.

After October 5th, the barbers in this town will charge 35 cents for hair-cuts on Saturdays. Read this item and save your ten cents by getting your hair clipped on any day in the working week, except Saturday.

There are two supplements with the REGISTER this week. One is Attorney General Major's speech at the opening of the Democratic campaign in St. Louis last Wednesday night. The other is a picture of our candidate for President and Vice-President.

Geo. W. Wallis, of Des Arc, was an Ironton visitor Monday. Mr. Wallis tells us that the Holiness College opened Tuesday of last week with a fair enrollment and prospects for a number of more students in the near future. He says the camp meeting was a great success and largely attended by many people for miles around.

Geo. W. Collins Monday morning brought to this office a mammoth apple. It was of the Wolf River variety, 15 1/2 inches in circumference and as beautiful a specimen of fruit as you ever saw. Twenty-eight of the apples filled a half bushel measure to overflowing. Mr. Collins' orchard on his farm on Crane Pond is one of the finest in the county.

The Progressive or "Bull Moose" Party failed to nominate a county ticket on Saturday. A number met at Potosi, but acting upon instructions from State headquarters, issued a call for township meetings to be held on Friday next, to elect delegates to a county convention to be held here on Saturday, Sept. 28th, to nominate a county ticket.—Potosi Independent.

Rev. George Steel has returned from Flat River, where he has been holding a meeting, and he and Mrs. Steel are now stopping at the Sanitarium. Mr. Steel says that any one who is not an advocate of granite walks, should go to some place like Flat River, where walks are few and far between, on a rainy day. That, he says, will sure make a convert of him.

The Republican candidates for office in Iron county have refused to enter into the agreement proposed to them by the Democrats—not to use booze in the present campaign. Their action is not at all surprising to us. It shows plainly and unmistakably the methods on which the "God and morality" party rely to win. So when you hear of booze and boodle in this fight you may know the Republicans put it there.

Rev. J. R. A. Vaughn, until recently presiding elder of the Popular Bluff district, was named by the M. E. Conference, South, at Dexter Monday as the pastor of Fort Hill Church, Arcadia, for the ensuing year. Rev. Vaughn is a strong man and the Valley members of the church are delighted that he is to be here the next twelve months. The salary of the Fort Hill pastor for the ensuing year will be \$1200. Half of this amount is paid by the Assembly.

Mr. E. W. Graves of Des Arc was in Ironton Monday, and I had a mighty pleasant but all too abbreviated chat with him. He recently returned from a tour through Europe, Asia and Africa, and his memory is stored with interesting details thereof. I hope to some day get with him when neither business nor "devil" shall interrupt his narration of the things he saw and the impression they made on him.

Hon. James M. Graham, Democratic Congressman from the Springfield, Illinois, district, addressed the voters at the courthouse Tuesday evening. The gentleman is a logical, forceful talker and possesses unusual knowledge as to national affairs. In beginning his speech Mr. Graham paid a handsome compliment to our Congressman, Walter Hensley, whom he characterized as one of the most fearless, faithful and conscientious men in the National House of Representatives. It was an excellent Democratic speech and closest attention was accorded the speaker throughout.

Hon. Walter L. Hensley, Democratic nominee for Congress, will address the voters of Iron county at the following times and places: Redmond Black's store, October 4, 10 o'clock A. M.

Bixby, October 4, 2:30 o'clock P. M.

Cedar Grove school house, October 5, 10 o'clock A. M.

Graniteville, October 5, 2:30 o'clock P. M.

Ironton, October 5, 7 o'clock P. M.

All are cordially invited to attend these meetings.

Lieutenant Donald P. Morrison was fatally injured by the explosion of a steam chest on the port turbine on the United States torpedo boat destroyer Walker at Newport, Rhode Island, Tuesday.

The deceased was aged 25 years, a son of the late J. N. Morrison, of Piedmont, Mo., and a nephew of Mrs. Dr. Gay of this city. Two other seamen died as a result of the explosion and six were seriously injured. Lieutenant Morrison's mother, Mrs. Jennie Morrison, spent the summer in Ironton, leaving her about two weeks ago for Louisville, Kentucky. To her we extend sincere sympathy in her great sorrow.

Quite a stir was caused on the streets of our town Tuesday morning about eight o'clock; the excitement was due to four negroes who had been stealing a ride in a new coach belonging to the International & Great Northern Railroad; the coach was being carried by an Iron Mountain through freight. After the train stopped at Williamsville for orders the conductor discovered them and chased them off; the negroes started off at a good gallop when someone yelled "Marshall!" the negroes immediately put on more speed and proceeded to "whoop 'em up a little" disappearing over the top of a hill back of town.—Williamsville Herald.

A report from Ironton that the Doe Run Lead Co. had on Wednesday purchased a large tract of land in the Western part of the county for a total consideration of \$71,500 is branded by a representative of the company as being wholly untrue. We are informed that the land was purchased by A. A. Parker, of Lesterville, a wealthy Reynolds county stock dealer, and that the company had absolutely nothing to do with it. The land in question was owned by Redmond Black and is a tract of about 1200 acres located on Clayton Creek, 25 miles west of Ironton, and on the line of the proposed new railroad out of Bismarck.—Farmington News.

The rector of Trinity Church, De Soto, will preach in St. Paul's church, Ironton, this (Wednesday) evening. A class will be instructed for confirmation. Confirmation will be administered by Coadjutor Bishop F. F. Johnson next Sunday morning at 11 o'clock. We reproduce the following from the last issue of the Jackson Cash-Book: "Bishop Johnson is a man of wide and varied experience, and his years of service as missionary in the West, in Colorado, California, Arizona, and later as missionary bishop of South Dakota, have given him a knowledge of human nature granted to few. When a man has endured the labors and hardships with which Bishop Johnson met with continually during his six years service in South Dakota, open prairie in summer, with the blazing sun over his head, and the biting alkali dust in eyes and mouth, and nothing but alkali water to drink; in winter with a sixty-mile wind driving the snow and dirt until it stings like a lash, and a temperature thirty to forty degrees below zero. When a man endures all this to spread the word of God among the scattered ranching communities and squalid Indian villages of a new field, he must have a message for us. And in addition to being a man of deeds, Bishop Johnson is one of the most forceful speakers in the American church to-day. Perhaps it is because he has lived so close to the hearts of men that his sermons go straight to the heart."

The American Red Cross Society car No. 1 is making a tour of the entire Missouri Pacific-Iron mountain system. The car was started on its journey at Omaha, where it was kept for two days, September 16th and 17th, being hauled to Omaha by the Chicago & North-western Railroad and there turned over to the Missouri Pacific. The tour, which opens at Omaha, will be continued over the lines of the Missouri Pacific-Iron Mountain for three and a half months, the last stopping place being Texarkana, Ark., at which point the car will be on the 3rd and 4th of next January. The tour over the system is for the purpose of giving instructions in first aid for the injured, and teach safety as a means of prevented accidents. On its journey the car will be accompanied by representatives of the Red Cross Society, the Railroad Y. M. C. A. and of the Hospital Department and Safety Committees of the Missouri Pacific-Iron Mountain System. The national officials of the Red Cross Society operate this car purely as a place of philanthropic work. It is conducted under their railroad department, of which Dr. M. J. Shields, Washington, D. C., is head. Dr. M. W. Glasgow lives in the car and acts as instructor and demonstrator, the object of the trip being to educate railroad men and others in the work of rendering first aid to the injured by teaching them how to put temporary dressing on wounds and how to temporarily treat a fracture, etc., until medical aid can arrive.

Piedmont Tri-County Fair.

The Piedmont Tri-County Fair consisting of Iron, Reynolds and Wayne counties was the best ever this year. They had a large exhibit of horses, mules, cattle, hogs, sheep, goats, chickens, fancy work of all kinds, agricultural products of all kinds; and one of the best, if not the best, was the school exhibit of Wayne and Iron counties.

The High Schools of Piedmont and Ironton had an excellent display consisting of work from all the grades.

The Rural Schools exhibiting work, were: Williamsville, Patterson, Daymon, and Brunot of Wayne. Pilot Knob, Arcadia, Dec Arc, Roberts and King of Iron.

The Rural School exhibits were well gotten up and much enjoyed by all who are interested in education. Premiums were awarded as follows:

Approved High School: Piedmont (including all grades) First, \$24.00; Ironton (including all grades) Second, \$9.00.

Rural Schools: Collection of maps consisting of one outline map of the United States, one of Missouri, and one of the county; Daymon (of Wayne) First, \$5.00; King (of Iron) Second, \$3.00.

The Best Rural School Exhibit: Arcadia (of Iron) First, \$5.00; Daymon (of Wayne) Second, \$2.00. Two original stories illustrated by drawings and pasted pictures.

First prize won by Velma Sutherland (of Arcadia) \$2.00; Second prize won by a pupil of the Daymon school, \$1.00.

Three collections of pen drawings: First prize won by Velma Hood (of Daymon) \$2.00; Second prize won by Lena Clifton (of Roberts) \$1.00.

Agricultural note book written by pupil: First prize won by Clyde Hedgecote (of Pilot Knob) \$2.00.

A number of other prizes were awarded of which we have no record.

The quilts displayed by the little Misses Eugenia and Hazel Tual, of Arcadia, quilted at the ages of six and seven, attracted a great deal of attention and were given a prize of \$1.00. All told Iron county will get about \$23.00 in premiums on school exhibits.

We hope that more of our schools will represent next year. Teachers and patrons can never appreciate the work of their schools until they see it compared with other schools.

In addition to the above, Mr. W. E. Randall, the High School Principal of the Piedmont High School, offered his agricultural class, at the close of school last year, \$30, to be awarded to the pupil exhibiting the ten best ears of corn at the fair this year.

The prizes were to be divided as follows: first, \$15.00; second, \$10.00; third, \$5.00. Mr. Mellard Brooks, who is now teaching the King school of Iron county, was awarded first prize.

Mr. J. M. Hawkins captured first prizes on the best saddle and fastest trotter. Mr. Walter Fitz of Des Arc got first prize on the best combination saddle and driver and second prize on the best saddle. Mr. Abb. Townsend of Bellevue got first prize on the best combination roadster and saddle stallion.

Thursday, October 3d, is the fall opening day at Woodside's millinery parlors. The ladies will not forget the date.

Des Arc Items.

About one hundred people from Des Arc and Annapolis and a few from Sabula attended the Piedmont fair. No. 8 stopped every evening which was a great convenience to our people. A large crowd was in attendance. The gate receipts for the four days were more than \$2,000, besides the income from the stands of different kinds. There were several lunch stands, besides a regular dining room; prices, 25 to 35 cents, depending on how much you ate. At the noon hour you would have to wait a half hour for your meal, so great were the crowds. The stock show was good. Several hogs and colts took blue ribbons.

Joe Williams of Farmington was one of the judges. There should have been more cows. Not a single Jersey cow on the ground. Des Arc has some fine Jerseys but on account of the rain the first day they were not taken down. The ladies' department was well represented. The needlework was fine; the quilts were simply out of sight.

Wayne counties were well represented. They all won premiums. I have not the particulars, but understand Arcadia got first premium for best rural school work. The balloon ascension was good and a great sight for the children who had never seen anything of the kind. The trapeze performance was also good. All in all, it proved the best little fair in Southeast Missouri, and the best of all, it came out on top financially. It is bound to come out that way when you have such men as Chas. Weyland, Wm. Carter and others at the head of it. Among those in attendance from a distance I noticed: Eli Klotz and wife, of St. Louis; J. M. Morris and Mrs. G. W. Morris, of Farmington; and Uncle Jim Davis of Fredericktown. It was a home-coming for all of them. Mr. Morris said it was worth the time and money to see so many old friends.

Mr. Loyd, our section foreman, is very sick at this writing.

J. M. Morris and Mrs. G. W. Morris are visiting in Des Arc.

J. H. Stevenson was in St. Louis last week and bought a Ford automobile. He will run it to his mill, near Taskee, by the way of Patterson.

Judge Wm. Stevenson was lucky last week. He drew a new wagon in a raffle.

REMINGTON-UMC

Scatter Load SHOT SHELLS

When they're apt to get up close, slip in a Remington-UMC Scatter Load—and make your choke bore gun good in brush or thicket.

Arrow and Nitro Club steel lined scatterload shot shells open up your pattern so evenly that your bird can neither get too much nor too little.

A special system of wadding gives at 25 yds. a spread equal to that of a standard shell at 40 yds. and with greater penetration.

The steel lining gives the speed plus perfect pattern. Get a box to-day. Your local dealer has them. Try them on a paper target with your old duck gun.

Mrs. Fannie Culton is visiting her daughter in Arcadia.
